### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Applicants have amended the limitation "silicone polymer" as found in the independent claims of the previously filed claims to "crosslinkable organopolysiloxane". It is believed that this amendment is sufficient to overcome the previously relied upon prior art rejection which relied on Mizutani (JP-55078073). Specifically, Applicants have already shown criticality regarding the amount of glass frit additive. Mizutani does not teach any criticality regarding the glass frit additive. Moreover, Mizutani does not teach any upper or lower limit regarding the glass frit additive.

Applicant's information disclosure statement, filed on 9/2/09, has been considered. It should be noted that the English translation of JP-2003-100149 (cited on applicants IDS of 9/2/09) is relevant to Applicants claims. However, the JP document does not qualify as an anticipatory reference for any of the instant claims. The JP document is believed to render obvious some of the instant claims. However, like with Mizutani above, the JP document teaches that the amount of glass additive (and mica) employed therein is much broader than Applicants claimed range and no working examples are shown which employ the glass additive within or near the claimed amount of glass additive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Rejoinder***

Claims 1, 3-19, 21-33, 41, 42 and 44-51 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 34-38, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 4/29/08 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
